INTRODUCTION

Early in fiscal year 1984, a major change in the organizational structure of the Department occurred. After many years of having individual county welfare offices overseen by the state department, all county welfare offices became local offices of the State Department of Public Welfare. County welfare employees became state employees. In August, 1983, the name of the Department was changed to Department of Social Services.

During the year covered by this report, some local offices were closed or consolidated, and a district office concept was put into place with each district coming under the direction of a district administrator. The purpose of the district office/administrator concept is to provide consistent policy interpretation and application throughout the state, yet allow each district to respond to the unique circumstances of its particular area.

Under its new structure, the Department continues to strive to improve its services to persons in need while at the same time improving its fiscal and management efficiency.

Described below are the programs administered by the Department along with associated statistics for the period July 1983 - June 1984. As of June 30, 1984, the Department employed 1,773 persons statewide.

PUBLIC ASSISTANCE

Aid to Dependent Children

Aid to Dependent Children provides maintenance payments to children under 18 years of age who are deprived of parental support or care because of the continued absence from the home, physical or mental incapacity of a parent, or the partial or total unemployment of the primary wage earner.

ADC payments in fiscal year 1984 totaled $57,879,262, a 3.4 percent increase over last year. A monthly average of 15,128 families received payments, a 3.3 percent increase from the previous fiscal year. The average monthly payment per family was $318.83, and per individual, $111.48.

State Supplement to SSI

The federally administered Supplemental Security Income (SSI) Program established uniform national income and resource requirements and payment standards for aged, blind, and disabled persons seeking financial assistance. The purpose of the State Supplement Program is to add to the federal benefits to bring the income of the eligible persons up to the need standards of Nebraska which are higher than the standardized needs recognized by the SSI Program.

Some persons are not eligible for SSI payments but qualify for a State Supplement payment because of different regulations. Therefore, State Supplement cases consist of two groups - those which receive both SSI and a State Supplement and those receiving a State Supplement only.

In January, 1984, the standard of need was raised to $241 plus a housing allowance of up to $140 for one person. State Supplement payments to aged, blind, or disabled Nebraskans totaled $4,782,517 for fiscal year 1984, a 10.2 percent decrease from the previous year. An average of 7,444 cases per month received an average payment of $53.54 per case. This was a 6.4 percent decrease in average case load and a 4.1 percent decrease in average payment.

Child Support Enforcement Program

The Child Support Enforcement Program provides legal services to establish paternity and to establish and enforce court orders for child support. In addition, it monitors child support collections and provides services to locate absent parents. Child support collected for children whose families receive Aid to Dependent Children payments is retained by the state and federal government as reimbursement for the assistance payments. Support collected for children not receiving Aid to Dependent Children payments is passed directly to the families.

During fiscal year 1984, $4,661,582 were collected from absent parents on behalf of families receiving ADC payments and $18,368,309 was collected for families not receiving ADC. This represents 28.7 and 14.7 percent increases, respectively, over fiscal year 1983 collections.

Nebraska Energy Assistance Program

The Nebraska Energy Assistance Program is a federally funded program designed to assist low-income households in meeting rapidly increasing energy costs. As of June 30, 1984, $12,561,317 in regular heating payments had been distributed to 37,749 households, $704,914 in emergency heating payments had been distributed to 3,365 households and $1,551,615 in regular and emergency cooling payments had been made to 10,989.

Of the households receiving heating assistance, 11,159 included at least one elderly person and 3,594 households included at least one handicapped person.

State Disability

The State Disability Program provides aid to needy persons who have a disability expected to last for at least six months, but less than the twelve months required to be eligible for Supplemental Security Income.

State Disability maintenance payments this fiscal year were $539,939 or 136 percent more than last year. The number of cases changed from a monthly average of 63 last year to 119 this year. The average payment per case was $378.11.

See the Medical Assistance section for information on the medical portion of this program.

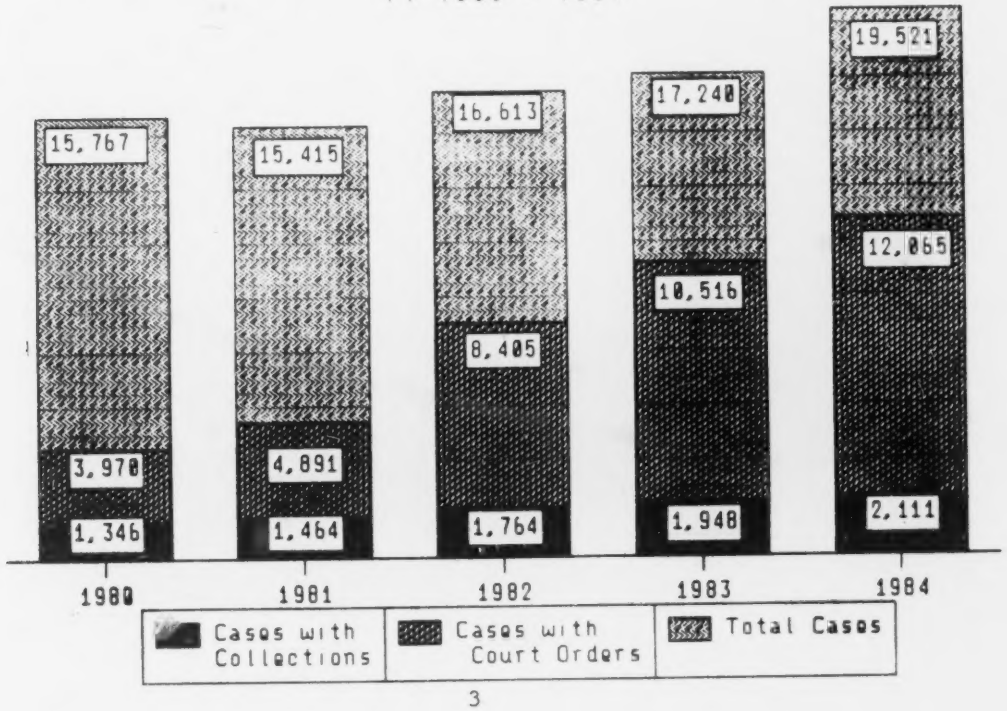
AID TO DEPENDENT CHILDREN CHILD SUPPORT ENFORCEMENT PROGRAM
AVERAGE MONTHLY CASES WITH COURT ORDERS AND COLLECTIONS
FY 1980 - 1984



Emergency Assistance

Emergency Assistance is provided to needy families with minor children in situations where other resources are not available. Examples of situations for which assistance is available are imminent evictions, loss of utility service, or exhaustion of food supplies.

Emergency Assistance payments were made this year to 6,026 people and cost $330,856. This was a decrease in both persons and expenditures from last year. About 33 percent of recipient families also received ADC.

See the Medical Assistance section for information on the medical portion of this program.

Work Incentive Demonstration Program

The Work Incentive Demonstration Program is a federal program developed to assist Aid to Dependent Children recipients in acquiring productive jobs. In fiscal year 1984, grants for 2,094 ADC recipients were either closed or reduced because of the WIN Demo Program. Of these, 1,127 began full-time employment and 353 began part-time employment. The total savings to the ADC Program this fiscal year because of WIN was $461,077.

A total of 2,953 ADC clients remained registered for WIN as of the end of June, 1984. The supportive services these people can receive under the WIN Demo Program are child care, transportation, health related, homemaker and counseling.

Refugee Resettlement Program

The Refugee Resettlement Program provides financial asssistance to refugees who have been resettled in the United States. According to the federal instructions, any refugees requesting help must first apply for other programs. If they do not meet the requirements of these programs, an eligibility determination is made for the Refugee Resettlement Program. In fiscal year 1984, money payments to needy refugees were $259,413. Special services including job development, vocational training and English language classes were provided at a cost of $182,365.

See the Medical Assistance section for information on the medical portion of this program.

----------FOOD PROGRAMS----------

Food Stamps

The objective of the Food Stamp Program is to raise the level of nutrition among low-income households. Participation in the Food Stamp Program is based on household size and adjusted net income in relation to the Office of Management and Budget's Poverty Guidelines.

During this fiscal year, an average of 92,879 personsin 33,249 households participated in the Food Stamp Program each month. This represents an increase over fiscal year 1983 of 2.9 percent in the number of persons per month and 2.3 percent in the number of households per month. The average monthly number of households included 11,086 public assistance households (those in which all members of the household are ADC recipients) and 22,163 non-public assistance households. The total value of coupons issued for fiscal year 1984 was $41,682,330 with an average value per household of $104.47 per month.

Food Distribution Program

The Food Distribution Program received food from the U.S. Department of Agriculture which it distributes to schools, charitable and correctional institutions, nutrition programs for the elderly, summer camps, special summer feeding programs and commodity supplemental feeding programs.

During fiscal year 1984, foods were distributed for daily meal service to 161,808 children in the child nutrition programs, to 8,519 institutional recipients, and to 13,014 individuals in nutrition programs for the elderly. Foods were also issued to summer camps, migrants and special summer feeding programs. A total of 10,987,829 pounds of food was distributed at a cost of $550,368 for warehouse and transportation charges.

Special Distribution Program

The Special Distribution Program served approximately 105,000 needy Nebraska households each quarter during fiscal year 1984. Products distributed through this program are butter, cheese, honey, non-fat dry milk, flour, cornmeal and rice. Distributions occur quarterly in each county.

----------MEDICAL SERVICES----------

Medical assistance payments constitute the largest portion of Department of Social Services expenditures. The Nebraska medical assistance program consists of Title XIX (Medicaid), Services for Crippled Children, and the medical portion of three non-Title XIX assistance programs: Emergency Assistance, State Disability and Refugee Resettlement. These five programs are administered by the Division of Medical Services.

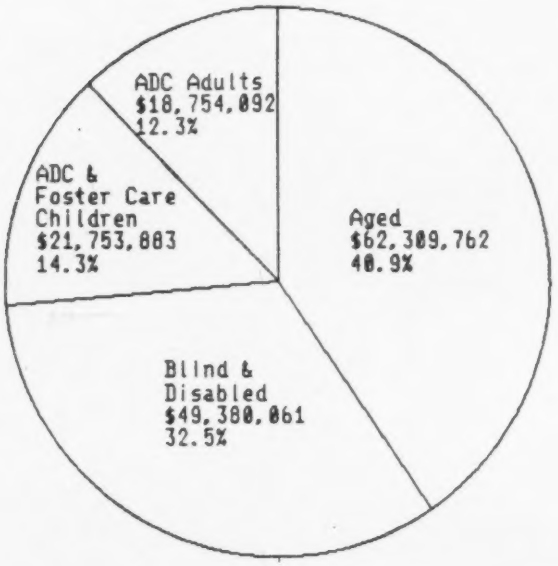
Title XIX (Medicaid) Program

The most comprehensive medical assistance program is Title XIX (Medicaid). The medical expenses under this program are shared by the federal, state and county governments. Medicaid payments are made on behalf of about 80,000 Nebraskans each year or about five percent of the entire state population.

Financial need is the primary factor in determining Medicaid eligibility. Recipients of Aid to Dependent Children, State Supplement and State Ward Foster Care are automatically eligible. Other persons who have income sufficient for maintenance needs but cannot afford needed medical care may qualify as "medically needy" if they are otherwise categorically eligible.

Medicaid net expenditures (expenditures less refunds) in fiscal year 1984 amounted to $148,931,596 - a decrease of 2.2 percent from fiscal year 1983. Direct vendor payments totaled $152,197,798, an increase of

MEDICAID
EXPENDITURES BY PROGRAM AREA
Fiscal Year 1984
Vendor Expenditures: $152,197,798



4.7 percent from last year. Direct vendor payments were made on behalf of an average 39,893 persons per month this year - which compares to last year's average of 38,332 persons.

Nursing home services (skilled nursing facility, intermediate care facility, and intermediate care facility for the mentally retarded), and inpatient hospital services (general and mental hospital) accounted for 52.6 percent and 24.6 percent, respectively, of this year's total vendor expenditures. Prescribed drugs and physicians' services were the most utilized Medicaid services with an average of 24,818 and 18,088 persons, respectively, using these services each month this year.

Services for Crippled Children

Expenditures for the Services for Crippled Children Program this year amounted to $2,478,436 (which includes $442,992 in administrative expenditures). As of June 30, 1984, there were 3,827 children certified to receive services.

The SSI-Disabled Children Program expenditures this fiscal year totaled $104,897 and are not included in the Services for Crippled Children expenditures total.

Non-Title XIX Medical Programs

In addition to the Medicaid Program, there are three public assistance programs which offer medical assistance along with maintenance assistance: Emergency Assistance, the Refugee Resettlement Program, and the State Disability Program. These programs are similar to Title XIX in that they offer the same range of medical services, but differ as to funding sources, federal matching rates, and the recipient population served.

Emergency Assistance

Medical assistance may be provided to needy families in a crisis situation through the Emergency Assistance Program. Medical expenditures funded through this program (including catastrophic illness) totaled $157,279 for the 1984 fiscal year, an increase of 31.7 percent from last year's expenditures of $119,428.

Refugee Resettlement Program

Medical claims totaling $126,752 were paid on behalf of a monthly average of 66 persons this year through the Refugee Resettlement Program. This compares to expenditures of $345,490 paid on behalf of a monthly average of 210 persons last year.

State Disability Program

In fiscal year 1984, $1,472,756 were paid on behalf of an average 132 persons each month through the medical portion of the State Disability Program. Expenditures increased 51.7 percent over the past year, and the average number of persons for whom claims were paid each month increased 43.5 percent.

----------AGED AND DISABLED SERVICES----------

Aged and Disabled Contracted Services

Expenditures for adult contracted services totaled $4,530,789 for fiscal year 1984 and purchased services for 8,623 persons, an increase of 0.5 percent for expenditures and a decrease of 12.8 percent for persons from the previous year. Of this amount, $2,251,461 was spent on chore services for 5,259 persons; $1,157,656 on meals for 3,771 persons; and $613,146 on transportation for 4,034 persons. The most dramatic change showed up in the meals service area, with a drop of 6.5 percent in dollars and a drop of 17.1 percent in persons compared to statistics from the previous year.

Mental Retardation Services

In fiscal year 1984, an average of 2,180 persons received services quarterly through the mental retardation program. A table illustrating services and persons by region for the month of June is included in this report.

Staff Provided Services

Many local offices provide direct services. Among the services provided are protective services, foster care, transportation, homemaker and chore. Data on staff provided services are not included in this report.

*Regions on this table refer to Mental Retardation Regions.

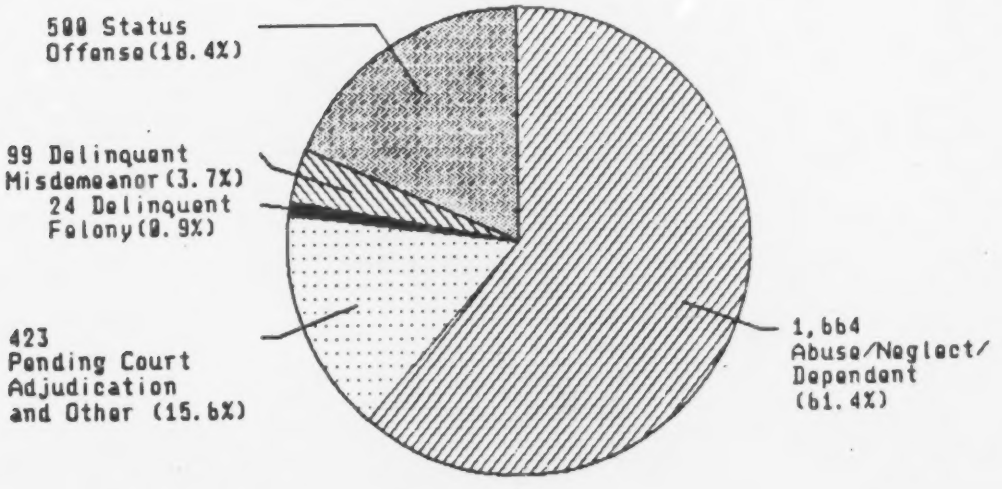
Family contracted services were provided to 11,542 persons this year at a cost of $3,535,413, an increase of 2.2 percent in persons and a decrease of 1.3 percent in dollars from the 1983 fiscal year. Day care services were provided to an average of 3,075 children per month at an average monthly cost of $87.14 per child, compared to 3,113 children and $88.14 the prior year.

State Wards

Direct casework services are provided to children and youth who are relinquished by their parents to the state, are made wards of the state by court order, or are made wards of the court. As of June 30, 1984, 2,710 children and youth were receiving these services. Charts showing youth by adjudication status and by living arrangement follow.

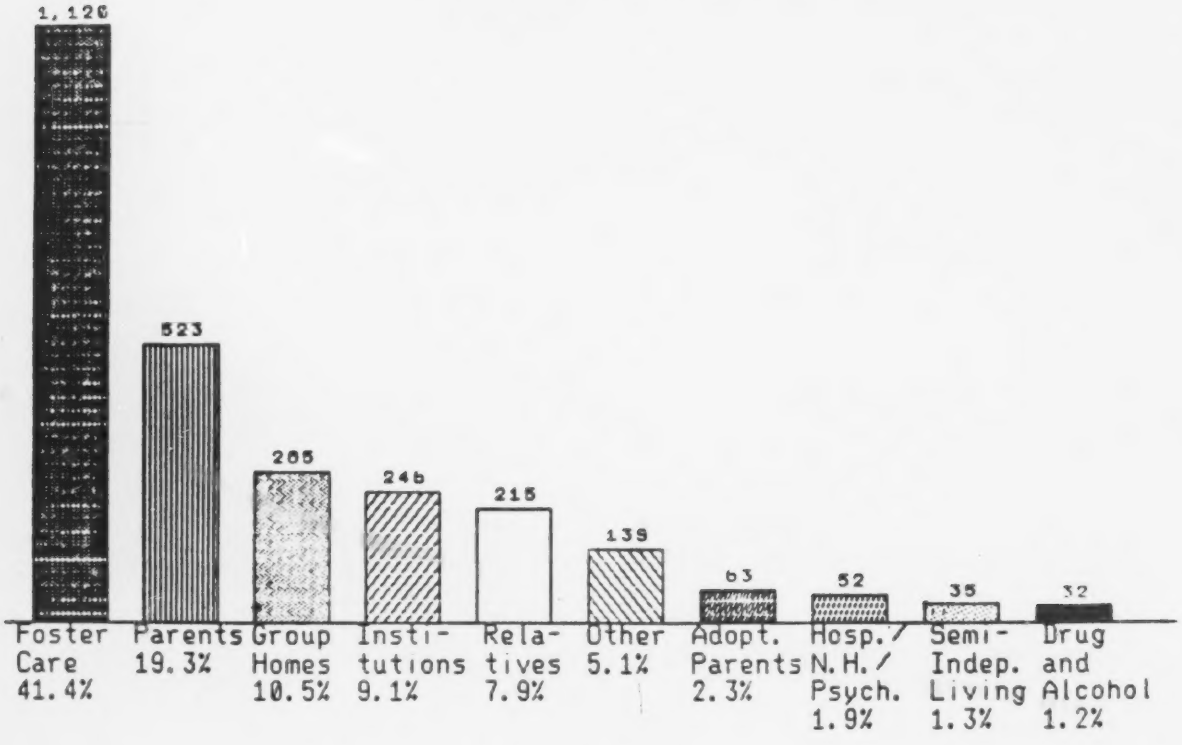
Adjudication refers to the legal category under which custody of a child is removed from the parent or caretaker. The majority of youth, 61.4 percent, receive services because they have been abused or neglected by their parent or caretaker or are dependent on the Department for their care. Status offenders account for 18.4 percent of the children in care. These are youth whose actions, such as truancy from school or ungovernable behavior, would not have been considered illegal offenses if they were over age 18. Youth pending court adjudication have not had a final court determinatin regarding their care and custody. This also includes youth who are detained by law enforcement officials or placed in emergency shelter.

ADJUDICATION STATUS OF CHILDREN RECEIVING SERVICES PAID FOR BY THE DEPARTMENT
June 30, 1984
Total = 2,710



500 Status Offense (18.4%)
99 Delinquent Misdemeanor (3.7%)
24 Delinquent Felony (0.9%)
423 Pending Court Adjudication and Other (15.6%)
1,664 Abuse/Neglect/ Dependent (61.4%)

LIVING ARRANGEMENTS OF CHILDREN RECEIVING SERVICES PAID FOR BY THE DEPARTMENT
June 30, 1984
Total = 2,710



Every effort is made to keep children at home, yet when children must be placed out of the home, several different living arrangements are considered. Many criteria are examined before a child is placed out of the home. One of these criteria is that the child be placed in the least restrictive, most home-like setting possible to meet the child's needs. At the end of June, 41.4 percent or 1,120 youth were in foster homes, including children in emergency shelter care; 523 or 19.3 percent of the youth were living with their parents and being supervised by the Department on a trial basis as part of a family reunification plan or pending placement; 215 youth or 7.9 percent were living with their relatives. There were 285 children in group homes. Institutionalized youth may be placed at Boys Town, the Nebraska Center for Children and Youth or similar agencies. Children who have run away from their caretaker or are in jail are included in the Other category. As of June 30, there were 63 youth living with their adoptive parents, where adoptions are not yet finalized; 52 youth were receiving services in a hospital, nursing home, or psychiatric treatment facility; 35 youth were being supervised in semi-independent living and 32 youth were receiving drug or alcohol treatment services.

Foster Care Program

The Foster Care Program provides maintenance and medical assistance to eligible children and youth who are not covered by the federally-matched, Title IV-E Foster Care Program. An average of 1,112 persons per month received maintenance assistance under this program during fiscal year 1984, an increase of 129 persons from the prior year. Money payments to foster care children totaled $5,762,048 with an average monthly payment of $432.02 per person, an increase from fiscal year 1983 of 18.2 percent for total money payments, and an increase of 4.5 percent for average maintenance payments.

In the Title IV-E Foster Care Assistance Program, an average of 626 persons per month received maintenance assistance, a decrease of 10 persons from the 1983 fiscal year. Money payments to foster care children totaled $2,326,913 with an average payment of $309.76 per person, a decrease from the previous year of 1.1 percent for total money payments, and an increase of 0.5 percent for average maintenance payments. This program serves youth who were previously counted in the foster care section of the Title IV-A Aid to Dependent Children Program.

Subsidized Adoption and Title IV-E Adoption Assistance

The Subsidized Adoption Program is designed to place children in permanent homes with families who could not afford to adopt a child without financial assistance. In September, 1981, the Title IV-E Adoption Assistance Program was established providing partial federal funding for eligible children. There are presently 363 children receiving maintenance assistance through the two adoption programs, representing a 16.7 percent increase in children from the end of the previous year. A total of $91,226 was spent during the fiscal year: for maintenance agreements - $71,015; for medical payments - $18,606; and for miscellaneous payments - $1,604.

The Nebraska Center for Children and Youth

The Nebraska Center for Children and Youth (NCCY) provides care and treatment for children under 18 years of age who have been committed to the Department of Social Services by juvenile court. NCCY offers a wide range of services including education, medical, recreation, psychiatric and psychological support, family therapy and residential care. The residential program includes a continuum of services ranging from a highly structured intensive treatment facility to less structured group homes and a semi-independent living facility. The Center includes seven living units, plus a Family Life Center on the main campus and eight group homes and a semi-independent apartment in Lincoln, Seward, Columbus, Bellevue and Auburn. NCCY can serve a maximum of 113 youth. There were 103 youth being served as of June, 1984.

Licensing

The Department of Social Services has statutory responsibility for licensing day care homes, day care centers, foster homes, combination (day care and foster) homes, group homes, child care agencies and child placing agencies. A table which presents the number of each type of facility that was licensed at the end of June, 1984, is included in this report.

Domestic Abuse Program

As a result of the Protection from Domestic Abuse Act, the Department of Social Services was mandated to provide services to victims of domestic abuse and their families. The program funding was $428,000 for fiscal year 1984. The Department awarded grants to 23 community-based groups to provide emergency services. Contracted services included 24-hour access, transportation, medical and legal referral, crisis counseling, emergency financial aid, shelter and community education. Shelter facilities, hotels, motels, and community homes were utilized by the groups as safe havens for victims and their children. Volunteer and local support are significant in this program.

Nebraska Department of Social Services

1985 Annual Report

The Honorable Robert Kerrey
Governor of Nebraska
State Capitol Building
Lincoln, Nebraska 68509

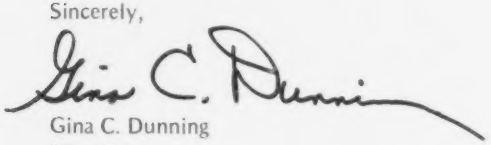
Dear Governor Kerrey:

This Annual Report of the Nebraska Department of Social Services is submitted, in accordance with State statute, for your consideration. It provides information regarding activities of the Department during the fiscal year ending June 30, 1985.

The need for services from the Department continues to grow especially in the rural areas of Nebraska. The staff of the Department is committed to meeting the needs of our clients in a professional manner.

The Department's staff appreciates the support given it by the Governor and the Legislature in providing services to the people of Nebraska.

Sincerely,



Gina C. Dunning
Director

Introduction

Fiscal year 1985 can be characterized as a year of innovation for the Department of Social Services. The need to provide more and better services to our clients with limited financial resources, prompted the Department to seek more efficient and more creative means of service delivery, along with seeking new sources of funding.

Organizing a system of offices for service delivery presented the single greatest management challenge in fulfilling the recent legislative mandate to shift to direct state administration of social services. Ninety separate and formerly autonomous local offices staffed by over 1,200 employees were organized into a cohesive administrative unit, based on the division of the state into eight districts. The need to offer the full range of Department services statewide; to keep services accessible to clients; to respond to fluctuating service demands; and to support service delivery are the four underlying principles of the district structure. Client Service Delivery is currently staffed by the Deputy Director for Client Service Delivery, eight district administrators (who also service as local office administrators), sixteen additional local office administrators, all local office and some central office administrative staff.

Among other innovations in service delivery were the development of home-based family centered services for families with a child at risk of out-of-home placement; the initiation of three child support pilot projects, setting up Department staff – attorneys, paralegals, and support teams to investigate, establish and enforce child support orders; and implementation of the Disabled Persons and Family Support Program which offers an innovative approach to the employment of disabled adults and to helping families with a disabled member stay together.

New sources of funding included the award of a privately funded grant for the Black Adoption Project and the notice of award of private funding for the community development component for home-based family centered services. State Revenue refunds and unemployment insurance benefits were intercepted to pay delinquent child support payments owed to the Department. Share the Care, a program to allow voluntary payments to the Department by families of nursing home residents whose care is paid for by Medicaid, was piloted in one district. The pilot was successful and the program will be expanded statewide. The recruitment and use of volunteers was increased and a "gift catalog" was published for individuals and groups wishing to make contributions to the Department.

STATEMENT OF DISBURSEMENTS [1]

Actual Program Costs	FY 1985
Medicaid	$155,465,856
Aid to Dependent Children	54,468,647
Low Income Energy Assistance	17,897,201
Title XX Purchased Services (except Mental Retardation)	8,333,412
Title XX Purchased Services (Mental Retardation)	4,943,612
Child Welfare Services	10,873,050
State Supplement to SSI	5,023,810
Services for Crippled Children	3,062,729
Nebraska Center for Children and Youth	3,542,585
Community Services	2,324,668
Refugee Resettlement	519,549
State Disability – Medical	1,849,764
State Disability – Maintenance	286,006
Miscellaneous	584,158
Emergency Assistance	197,750 [2]
Work Incentive Program	112,831
Catastrophic Illness	76,909 [2]
Total Program Costs	**$269,562,537**
State Administration Costs	
Client Services Delivery (Local Office Administration)	$ 26,101,229
Director's Office	188,379
Medical Services	1,977,604
Human Services	1,090,383
Public Assistance and Food Program	1,592,812
Client Payments and Administrative Support	3,984,647
Enforcement Services	3,512,122
Planning and Information Systems	4,583,199
County Reimbursement	451,880
Legal Services	324,439
Special Grants	121,407
Disaster Relief	51,001
Total State Administration Costs	**$ 43,979,102**
Total Department Costs	**$313,591,239 [3]**

[1] These figures represent net expenditures adjusted for refunds and cancellations and do not necessarily correspond to gross expenditure figures used in the narrative and tables sections of this report.

[2] State and federal funds only, county share not included.

[3] Includes $49,600 for asbestos removal at the Nebraska Center for Children and Youth.

Cost reduction measures included the reduction of out-of-state placements of state wards and a reduction in the number of children placed out of their homes. Improvements were made in nursing home payment formulas to discourage inflationary changes in facility ownership and to promote cost efficiencies. Medicaid coverage was extended to ambulatory surgical centers and all children under the age of 21 whose families meet income requirements (the Ribicoff program). Other cost efficiencies were achieved through staff redistribution, enhanced computer support and policy refinements.

Described in this report are the programs administered by the Department during July 1984 – June 1985 and the statistics associated with them. As of June 30, 1985, the Department employed 1,852 persons statewide.

Public Assistance

Aid to Dependent Children

Aid to Dependent Children provides maintenance payments to children under 18 years of age who are deprived of parental support or care because of the continued absence from the home, physical or mental incapacity of a parent, or the partial or total unemployment of the primary wage earning parent.

ADC payments in fiscal year 1985 totaled $58,600,626 a 1.2 percent increase over last year. A monthly average of 15,244 families received payments, a 0.8 percent increase from the previous fiscal year. The average monthly payment per family was $320.36, and per individual, $111.22.

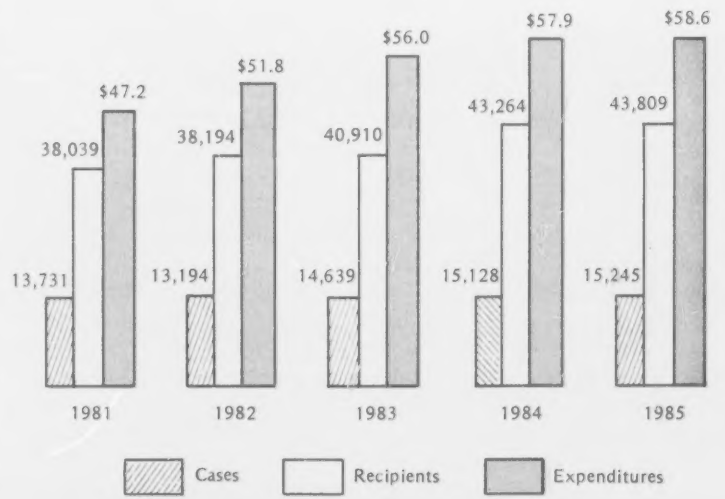
AID TO FAMILIES WITH DEPENDENT CHILDREN
TOTAL EXPENDITURES AND AVERAGE MONTHLY CASES AND RECIPIENTS
Fiscal Years 1981 – 1985



Job Support Program

The previous Work Incentive Demonstration Program was changed to Job Support as of January, 1985. A major change was making Job Support services and activities available statewide, rather than in selected counties. In addition, a waiver was received from the Federal government to allow inclusion of parents whose youngest child is between the ages of three and six years in Job Support activities. Besides the ongoing WIN Demonstration job search activities, Job Support includes specialized training in self-directed job search for qualified ADC applicants and recipients.

In fiscal year 1985, grants for 3,936 ADC recipients were either closed or reduced because of the WIN Demo/Job Support Program. Of these, 1,630 began full time employment and 953 began part time employment.

A total of 4,765 ADC clients remained registered for Job Support as of the end of June, 1985. The supportive services these people can receive are child care, transportation, health related and work related expenses.

Refugee Resettlement Program

The Refugee Resettlement Program provides financial assistance to refugees who have been resettled in the United States. According to the federal instructions, any refugees requesting help must first apply for other programs. If they do not meet the requirements of these programs, an eligibility determination is made for the Refugee Resettlement Program. In fiscal year 1985, money payments to needy refugees were $394,809. Special services including job development, vocational training and English language classes were provided at a cost of $34,526.

See the Medical Assistance section for information on the medical portion of this program.

State Supplement to SSI

The federally administered Supplemental Security Income (SSI) Program established uniform national income and resource requirements and payment standards for aged, blind, and disabled persons seeking financial assistance. The purpose of the State Supplement Program is to add to the federal benefits to bring the income of the eligible persons up to the need standards of Nebraska which are higher than the standardized needs recognized by the SSI Program.

Some persons are not eligible for SSI payments but qualify for a State Supplement payment because of different regulations. Therefore, State Supplement cases consist of two groups – those which receive both SSI and a State Supplement and those receiving a State Supplement only.

In January, 1985, the standard of need was raised to $246 plus a housing allowance of up to $140 for one person. State Supplement payments to aged, blind, or disabled Nebraskans totaled $5,165,280 for fiscal year 1985, an 8.0 percent increase from the previous year. An average of 7,785 cases per month received an average payment of $55.29 per case. This was a 4.6 percent increase in average case load and a 3.3 percent increase in average payment.

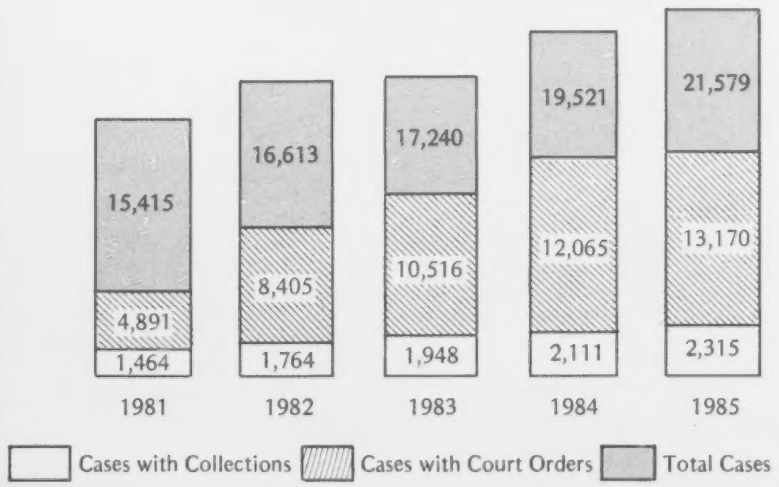
AID TO DEPENDENT CHILDREN CHILD SUPPORT ENFORCEMENT PROGRAM – AVERAGE MONTHLY CASES WITH COURT ORDERS AND COLLECTIONS
Fiscal Year 1981 – 1985



Child Support Enforcement

The Child Support Enforcement Program provides legal services to establish paternity and to establish and enforce court orders for child support. In addition, it monitors child support collections and provides services to locate absent parents. Child support collected for children whose families receive Aid to Dependent Children payments is retained by the state and federal government as reimbursement for the assistance payments. Support collected for children not receiving Aid to Dependent Children payments is passed directly to the families.

During fiscal year 1985, $5,141,530 were collected from absent parents on behalf of families receiving ADC payments and $23, 689,361 were collected for families not receiving ADC. This represents 10.3 and 29.0 percent increases, respectively, over fiscal year 1984 collections. Included in these figures is money collected through the interception of Internal Revenue Service (IRS) and State Revenue refunds and unemployment insurance benefits. For calendar year 1984 intercept collections were $714,907 for IRS, $28,592 for State Revenue and $78,965 for unemployment insurance benefits.

Nebraska Energy Assistance Program

The Nebraska Energy Assistance Program is a federally funded program designed to assist low-income households in meeting rapidly increasing energy costs. As of June 30, 1985, $15,190,446 in regular heating payments had been distributed to 37,102 households, $449,755 in emergency heating payments had been distributed to 2,645 households. There was no cooling assistance available in this period due to shortage of funds.

Of the households receiving heating assistance 9,896 included at least one elderly person and 3,519 households included at least one handicapped person.

State Disability

The State Disability Program provides aid to needy persons who have a disability expected to last for at least six months, but less than the twelve months required to be eligible for Supplemental Security Income.

State Disability maintenance payments this fiscal year were $348,023, 35.5 percent less than last year. The number of cases changed from a monthly average of 119 last year to 80 this year. The average payment per case was $361.02.

See the Medical Assistance section for information on the medical portion of this program.

Emergency Assistance

Emergency Assistance is provided to needy families with minor children in crisis situations where other resources are not available. Examples of situations for which assistance is available are imminent evictions, loss of utility service, or exhaustion of food supplies.

Emergency Assistance payments were made this year to 7,013 people and cost $397,800. This was an increase in both persons and expenditures from last year. About 26.3 percent of recipient families also received ADC.

See the Medical Assistance section for information on the medical portion of this program.

Food Programs

Food Stamps

The objective of the Food Stamp Program is to raise the level of nutrition among low-income households. Participation in the Food Stamp Program is based on household size and adjusted net income in relation to the Office of Management and Budget's Poverty Guidelines.

During this fiscal year, an average of 92,469 persons in 33,320 households participated in the Food Stamp Program each month. This represents a decrease from fiscal year 1984 of 0.4 percent in the number of persons per month and 0.2 percent in the number of households per month. The average monthly number of households included 11,091 public assistance households (those in which all members of the household are ADC recipients) and 22,229 non-public assistance households. The total value of coupons issued for fiscal year 1985 was $42,802,266 with an average value per household of $107.05 per month.

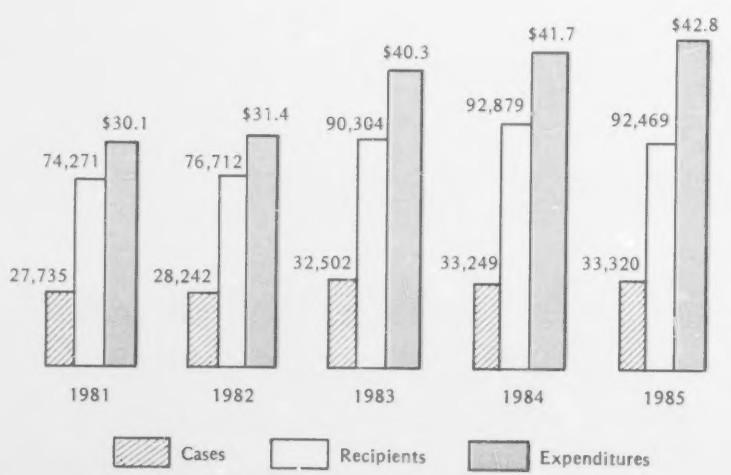
TOTAL EXPENDITURES AND AVERAGE MONTHLY CASES AND RECIPIENTS
Fiscal Years 1981 – 1985



Food Distribution Program

The Food Distribution Program received food from the U.S. Department of Agriculture which it distributes to schools, charitable and correctional institutions, nutrition programs for the elderly, summer camps, special summer feeding programs and commodity supplemental feeding programs.

During fiscal year 1985, foods were distributed for daily meal service to 169,407 children in the child nutrition programs, to 8,847 institutional recipients, and to 11,107 individuals in nutrition programs for the elderly. Foods were also issued to summer camps, migrants and special summer feeding programs. A total of 10,848,703 pounds of food was distributed at a cost of $546,582 to the recipient agencies for warehouse and transportation charges.

Special Distribution Program

The Special Distribution Program served approximately 95,000 needy Nebraska households each quarter during fiscal year 1985. Products distributed through this program are butter, cheese, honey, non-fat dry milk, flour, cornmeal and rice. Distributions occur quarterly in each county.

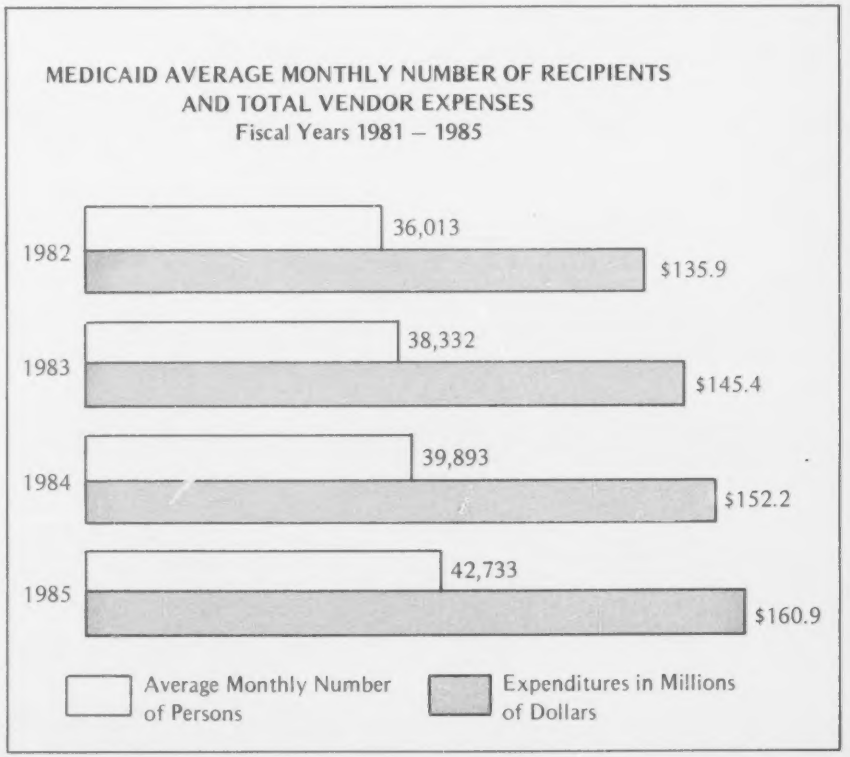
Medical Services

Medical assistance payments constitute the largest portion of Department of Social Services expenditures. The Nebraska Medical Assistance Program consists of Title XIX (Medicaid), Services for Crippled Children, and the medical portion of three non-Title XIX assistance programs: Emergency Assistance, State Disability and Refugee Resettlement. These five programs are administered by the Division of Medical Services.

Title XIX (Medicaid) Program

The most comprehensive medical assistance program is Title XIX (Medicaid). The medical expenses under this program are shared by the federal, state and county governments. Medicaid payments are made on behalf of about 90,000 Nebraskans each year.

Financial need is the primary factor in determining Medicaid eligibility. Recipients of Aid to Dependent Children, State Supplement and State Ward Foster Care are automatically eligible. Other persons who have income sufficient for maintenance needs but cannot afford needed medical care may qualify as "medically needy" if they are otherwise categorically eligible.



An exception to the requirement of categorical eligibility for medically needy persons was adopted into the Medicaid program this year. Commonly known as the "Ribicoff amendment", this provision allows coverage of all children under age 21 who meet financial guidelines.

An additional condition of eligibility was introduced this year to help assure that Medicaid is the payor of last resort of clients' medical expenses. All clients must now automatically assign their rights to third party medical coverage (usually insurance) to the state. This gives the state the right to collect insurance benefits to reimburse claims paid through the Medicaid program.

Medicaid net expenditures (expenditures less refunds) in fiscal year 1985 amounted to $155,369,451 – an increase of 4.3 percent from fiscal year 1984. Direct vendor payments were made on behalf of an average 42,733 persons per month this year – which compares to last year's average of 39,893 persons.

Nursing home services (skilled nursing facility, intermediate care facility, and intermediate care facility for the mentally retarded), and inpatient hospital services (general and mental hospital) accounted for 52.4 percent and 21.9 percent, respectively, of this year's total vendor expenditures. Inpatient hospital expenditures accounted for almost 25 percent of total expenditures in fiscal year 1984. The decrease in percentage of expenditures represents an actual decrease in inpatient hospital expenditures of over two million dollars. Prescribed drugs and physicians' services were the most utilized Medicaid services with an average of 26,148 and 20,419 persons, respectively, using these services each month this year.

Services for Crippled Children

Expenditures for the Services for Crippled Children Program this year amounted to $2,961,199 (which includes $467,900 in administrative expenditures). As of June 30, 1985, there were 3,469 children certified to receive services.

The SSI-Disabled Children Program expenditures this fiscal year totaled $99,078 and are not included in the Services for Crippled Children expenditures total.

Non-Title XIX Medical Programs

In addition to the Medicaid Program, there are three public assistance programs which offer medical assistance along with maintenance assistance: Emergency Assistance, the Refugee Resettlement Program, and the State Disability Program. These programs are similar to Title XIX in that they offer the same range of medical services, but differ as to funding sources, federal matching rates, and the recipient population served.

Emergency Assistance

Medical assistance may be provided to needy families in a crisis situation through the Emergency Assistance Program. Medical expenditures funded through this program (including catastrophic illness) totaled $107,146 for the 1985 fiscal year, a decrease of 31.9 percent from last year's expenditures of $157,279.

Refugee Resettlement Program

Medical claims totaling $97,736 were paid on behalf of a monthly average of 56 persons this year through the Refugee Resettlement Program. This compares to expenditures of $126,752 paid on behalf of a monthly average of 66 persons last year.

State Disability Program

In fiscal year 1985, $1,849,420 were paid on behalf of an average 162 persons each month through the medical portion of the State Disability Program. Expenditures increased 25.6 percent over the past year, and the average number of persons for whom claims were paid each month increased 22.7 percent.

Aged and Disabled Services

Aged and Disabled Contracted Services

The Department contracts for many services for aged and disabled adults. In fiscal year 1985, these services were purchased for 8,237 persons at a cost of $4,459,370. This was a decrease of 4.5 percent for persons and a 1.6 percent for expenditures from last year. Of this amount, $2,135,642 was spent on chore services for 4,881 persons; $1,059,228 on meals for 3,431 persons; and $647,732 on transportation for 3,939 persons.

Mental Retardation Services

In fiscal year 1985, 2,150 persons received services through the mental retardation program. During this year, special information was given to clients who are on waiting lists for particular services. Through increased efforts in case management and information and referral, workers tried to provide helpful alternatives until other services were available.

Staff Provided Services

Many local offices provide direct services. Among the services provided are protective services, foster care, transportation, homemaker and chore.

In addition to these services, the Department is working in coordination with the Department on Aging in pilot projects for a standardized assessment process which would indicate whether or not a contemplated admission of an individual to a nursing home is really the best available option. This is a formalized client assessment process conducted by a local worker and a registered nurse. It is planned that this process will be expanded statewide in the near future.

Children and Family Services

A major change in philosophical base and a redirection of policies and programs occurred during fiscal year 1985. Treatment of families with a child at risk of out-of-home placement became the approach preferred to removing children from the home and placing them in foster care. By the end of the year, twelve home based family therapists had been hired, and a number of public relations, public information and training efforts had been taken to increase the awareness of the home based philosophy and general Department direction in Children and Family Services.

Family Contracted Services

The Department contracts for many services for families. In fiscal year 1985, these services were purchased for 12,256 persons at a cost of $3,753,239. This was an increase of 6.2 percent in persons and an increase of 6.2 percent in expenditures from last year. Day care services were provided to an average of 3,110 children per month at an average monthly cost of $88.01 per child, compared to 3,075 children and $87.14 the prior year.

Child Welfare and Title IV-E Foster Care Assistance

Direct casework services are provided to children and youth who are relinquished by their parents to the state, are made wards of the state by court order, or are voluntarily placed, but not relinquished, by their parents. As of June 30, 1985, 3,010 children and youth were receiving these services. Charts showing youth by adjudication status and by living arrangement follow.

Adjudication refers to the legal category under which custody of a child is removed from the parent or caretaker. The majority of youth, 54.8 percent, receive services because they have been abused or neglected by their parent or caretaker or are dependent on the Department for their care. Status offenders account for 16.0 percent of the children in care. These are youth whose actions, such as truancy from school or ungovernable behavior, would not have been considered illegal offenses if the youth were over age 18. Youth pending court adjudication have either been voluntarily relinquished by their parent or else have not had a final court determination regarding their care and custody. This category also includes youth who are detained by law enforcement officials or placed in emergency shelter.

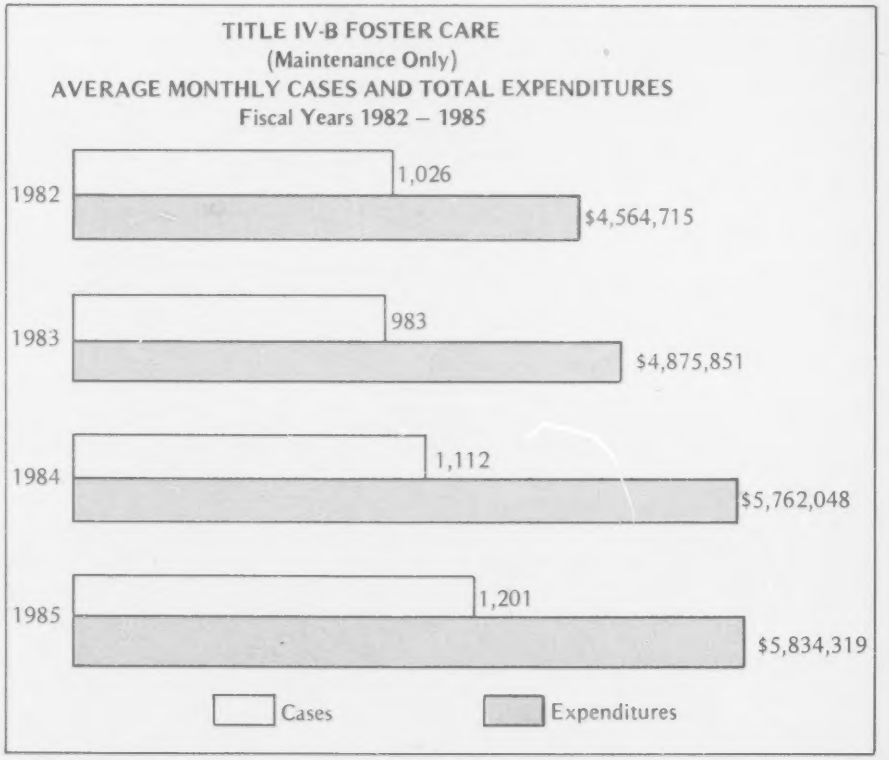
At the end of June, 41.3 percent or 1,242 youth were in foster homes (includes emergency shelter care); 680 or 22.6 percent were living with their parents and being supervised by the Department as part of a family reunification plan or pending placement; 227 youth or 7.5 percent were living with relatives; 290 children were in group homes. The "Other" category includes children in other living arrangements and runaways. The "Institutionalized" category includes youth placed at Boys Town, the Nebraska Center for Children and Youth or similar agencies. As of June 30, 69 youth were living with their adoptive parents, where adoptions are not yet finalized; 51 were being supervised in semi-independent living, 41 were receiving drug or alcohol treatment services and 73 were receiving services in a hospital or psychiatric treatment facility.

The Foster Care Program provides maintenance and medical assistance to eligible children and youth who are not covered by the federally-matched, Title IV-E Foster Care Program. An average of 1,201 persons per month received maintenance assistance under this program during fiscal year 1985, an increase of 89 persons from the prior year. Money payments to foster care children totaled $5,834,319 with an average monthly payment of $405.12 per person, an increase from fiscal year 1984 of 1.2 percent for total money payments, and a decrease of 6.2 percent for average maintenance payments.

In the Title IV-E Foster Care Assistance Program, an average of 731 persons per month received maintenance assistance, an increase of 105 persons from the 1984 fiscal year. Money payments to foster care children totaled $2,740,595 with an average payment of $312.42 per person, an increase from the previous year of 17.8 percent for total money payments, and an increase of 0.6 percent for average maintenance payments. This program serves youth who were previously counted in the foster care section of the Title IV-A Aid to Dependent Children Program.

Subsidized Adoption and Title IV-E Adoption Assistance

The Subsidized Adoption Program is designed to place children in permanent homes with families who could not afford to adopt a child without financial assistance. In September, 1981, the Title IV-E Adoption Assistance Program was established providing partial federal funding for eligible children. There are presently 418 children receiving maintenance assistance through the two adoption programs, representing a 15.2 percent increase in children from the end of the previous year. A total of $1,060,920 was spent during the fiscal year: for maintenance agreements – $916,445; for medical payments – $131,334; and for miscellaneous payments – $13,141.



The Nebraska Center for Children and Youth

The Nebraska Center for Children and Youth (NCCY) provides care and treatment for children under 18 years of age who have been committed to the Department of Social Services by juvenile court. NCCY offers a wide range of services including education, medical, recreation, psychiatric and psychological support, family therapy and residential care. The residential program includes a continuum of services ranging from a highly structured intensive treatment facility to less structured group homes and a semi-independent living facility. The Center includes six living units, plus a Family Life Center on the main campus and eight group homes and a semi-independent apartment in Lincoln, Seward, Columbus, Bellevue and Auburn. There were 72 youth being served as of June 30, 1985.

Licensing

The Department of Social Services has statutory responsibility for licensing day care homes, group day care homes, day care centers, preschools, foster homes, group homes, child care agencies and child placing agencies. In August, 1984, a Licensing Unit was established in the Enforcement Services Division, thereby separating early childhood and foster care programs licensing from resource development and placement.

A table which presents the number of each type of facility that was licensed at the end of June, 1985, is included in this report.

Domestic Abuse Program

As a result of the Protection from Domestic Abuse Act, the Department of Social Services provides services to victims of domestic abuse and their families. The program funding was $428,000 for fiscal year 1985. The Department awarded grants to 23 community-based groups to provide emergency services. Contracted services included 24-hour access, transportation, medical and legal referral, crisis counseling, emergency financial aid, shelter and community education. Shelter facilities, hotels, motels, and community homes were utilized by the groups as safe havens for victims and their children. Volunteer and local support are significant in this program.
